

**Joint Open Letter**

Monday 17 June 2019

**Excellencies,**

**António**

**Guterres  
Secretary General of the United Nations**

**Moussa Faki Mahamat  
African Union Commission Chairperson**

We the undersigned, 70 human rights organizations, networks and alliances from 13 Arab states, call on the United Nations and the African Union to undertake an urgent investigation into the crimes of the Sudanese military council in Khartoum on the 3rd of June.

During a press conference on Thursday 13th June, the spokesperson of the Transitional Military Council, Shams al-Din Kabbashi publicly acknowledged and admitted to the military council's decision to disband the sit-in carried out on the 3 June, after taking the advice of the Chief Justice and Attorney General. Kabbashi stated that the sit-in aimed to provoke and abuse their military forces, because of this they moved to break-up the sit-in. However, deviations from the original plan and mistakes were made.

The signatories also express deep concern about the Chief Justice of Sudan accepting to be an advisor to the junta rather than maintaining an independent judiciary.

The undersigned therefore call on the United Nations and the African Union to conduct an investigation into the crimes against defenseless civilians, targeting them in their sleep after midnight, in which, according to the Central Committee of Sudan Doctors, 118 victims were killed. In addition to this

hundreds have been wounded, abducted or reported missing, this includes those who have not been recovered from the Nile River, and thousands of women, men and children continue to be intimidated. Without delay, those responsible for these crimes against humanity must be held accountable under domestic and/or international law.
